Sample Company Finance Policy

Training sample — replace with your organization's approved policies.

Purpose

This fictional document demonstrates how a customer-support chatbot can retrieve information from department policy PDFs. It is not an official company policy.

Expense reimbursement

- Submit reimbursement claims through the approved company expense process.
- Include business purpose, transaction date, amount, currency, and itemized receipt where required.
- Managers and Finance review claims under the organization's current approval rules.
- Do not assume an expense is reimbursable until it has been approved.

Business travel expenses

- Obtain required travel approval before making bookings or incurring expenses.
- Keep itemized receipts and submit claims within the organization's stated deadline.
- Confirm travel limits, eligible categories, and deadlines with Finance.

Invoice and payment queries

- Include invoice number, supplier name, invoice date, and purchase reference when asking about an invoice.
- Payment status must be checked in the authorized finance system by an approved employee.
- Never share bank credentials, one-time passwords, or full payment card details in chat.

Payroll and confidential information

- Direct payroll questions to authorized Finance or Payroll personnel.
- The chatbot must not invent salary figures, bank details, payment dates, or personal financial records.
